4 Classification and field of application**4.1 Reference of classification**

This classification has been carried out in accordance with EN 13501-1:2007.

4.2 Classification

PVC Gamrat floor coverings Norma 43 and Centra 43, in relation to its reaction to fire behaviour are classified:

B_{fl}

The additional classification in relation to smoke production is:

s1

Fire behaviour		Smoke production	
B_{fl}	-	s	1

i.e.: **B_{fl}-s1**

Reaction to fire classification: **B_{fl}-s1**

4.3 Field of application

This classification is valid for the following product parameters:

- Product described in point 2.2 this classification report
- Product can be used with substrates with reaction to fire classification A1 or A2 and with wooden and wood based substrates.

5 Limitations

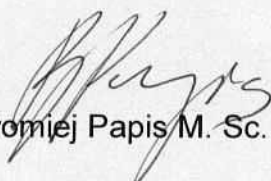

This classification given remains valid as long as:

- test method remains unchanged,
- product standard or technical approval remains unchanged,
- constructional or material modifications do not exceed limits of the field of application defined in 4.3.

This classification report has been issued in two copies. Additional signed copies can be issued by Fire Research Department of ITB on the request of the report's owner only.
